Sure, Alan. I'll have a look, if for no other reason than to better educate myself.

Don,

I have draft rationales done for roads, landslides and riparian. Do you want to review them? Allison has reviewed the roads and landslides, and has incorporated them into the draft decision document. The latest version of the riparian rationale, which was finished last Friday, incorporated Jayne's and Stephen's comments. I sent all three to Teresa Kubo for her final input earlier today. If you would like, I would be happy to send them to you.

Alan

Don,

The Rationale is clear, clean and concise. Nicely done!

Alan

Tech/Program Team,

I have been working with Jenny Wu, who has, in turn, been working with Oregon DEQ to get more information on the expected extent of the TMDL implementation plan coverage, as it related to the new development MM. Jenny and I developed the attached spreadsheet, compiled from several sources of information, and working closely with Oregon DEQ.

I have just shared this with Robert Goo, who originally raised these very appropriate concerns. So Robert is reviewing this concurrently with your review. Please let me know what you think of the updated rationale at your earliest

opportunity. Thanks.

Management Team (Lynda, Christine & Joelle) and Legal Team (Steve, JB, & Jeff),

Please review the attached rationale for interim approval of Oregon's **New Development** management measure and provide me with any review comments or edits that you have.

Thanks!
